

**Accuracy +/- 5%,
Repeatability +/- 2%**

Every RAD® air torque wrench is individually calibrated and traceable to NIST standards to help ensure joint integrity. RAD® tools are many times more accurate than impact wrenches and in many cases can be more precise than click type manual torque wrenches, which are often over pulled by operators.

**88 times less vibration than Impact wrenches....
Operates at only 85 db**

RAD® torque guns are one of the safest power tools on the market today. The exclusive low profile reaction arm takes virtually all the operational load off the operator, reducing injuries and greatly reducing operating costs. Don't wait for a time loss injury or legislation to force change in your environment, RAD® guns set the standard in bolting safety.

RAD 10GX-R Pneumatic Powered Torque Tool

The RAD 10GX-R extended nose with available custom reaction arms make this tool ideal for reaching wheel nut studs that are recessed where tool clearance is a problem.

RAD 10GX-R Wheel Nut Bolting Series Torque Tool

Part No.	Drive Size	Torque (Low- High)	RPM	Weight (kgs)	Noise Level
RAD-13541	0.75"	200 - 950 Nm	115	5.4	80 db

All RAD 10GX-R Series Torque Tools come fully calibrated complete with:

- RAD 10GX-R Torque Tool
- Reaction Arm and Retention Ring
- 12" Hose & Fittings
- Ergonomic Regulator Cage and Tool Holder

To ensure the highest quality of measurement and accuracy, each RAD® pneumatic tool comes individually calibrated traceable to NIST standards.

ALSO AVAILABLE FROM GLOBAL MINING PRODUCTS

ELECTRIC SERIES

Torque Range
150-3100 Nm

- ✓ Quick adjust torque settings
Fast and accurate "dial a torque" for maximum versatility and efficiency
- ✓ Soft-start vary speed trigger
Allows operator to safely and quickly set reaction arm before full torque is applied
- ✓ Equal power in forward and reverse
Convenience and cost effective use of same tool for break away and final torque
- ✓ Advanced ultra-durable electric motor design
Extreme duty designed to reduce maintenance cost and increase reliability
- ✓ Advanced gearbox design
PATENTED planetary gear reduction drive system delivering one of the highest power-to-weight ratios of any controlled bolting system

BATTERY SERIES

Torque Range
150-1750 Nm

- ✓ Quick adjust torque settings
Fast and accurate "dial a torque" for maximum versatility and efficiency
- ✓ Soft-start vary speed trigger
Allows operator to safely and quickly set reaction arm before full torque is applied
- ✓ Equal power in forward and reverse
Convenience and cost effective use of same tool for break away and final torque
- ✓ Imagine the freedom – no air lines, no power cords!
The lightweight design of the B-SERIES makes them ideal for any application, especially where compressed air and electricity are not readily available.
- ✓ Advanced gearbox design
PATENTED planetary gear reduction drive system delivering one of the highest power-to-weight ratios of any controlled bolting system

ELECTRONIC SERIES

Torque Range
135-8100 Nm

- ✓ Push-button select torque
Fast and convenient error-free digital single increment torque setting
- ✓ Lightweight and ergonomic pistol grip design
Advance low-profile handle to reduce operator fatigue and increase productivity
- ✓ Extremely low noise level only 75db
World's quietest extreme torque gun, ideal for sensitive environments and standards
- ✓ Data collection capability
All E Series tools come with data collection software allowing traceability of each torque sequence performed
- ✓ LED Green (Pass) or Red (Fail) indicator lights
Unmistakable visual signal indicates status of torque procedure for maximum accuracy and speed
