

Global Mining Products

RAD Electronic Series (E-RAD) are the world's most advanced electronic pistol grip torque wrenches. They are designed to provide a high degree of accuracy and repeatability using our legendary gear box design and the precision of an electronic motor. Capable of data collection, angle measurement, accuracy of +/-3%, and torque values up to 3000 ft/lbs, E-RAD Series offer an affordable solution for electronic bolting needs.

**Data Collection Capability**

All E Series tools come complete with data collection software allowing traceability of each torque sequence performed

**LED indicator lights indicating status of torque (Pass/Fail)**

Unmistakable visual signals indicate the status of torque procedure for maximum accuracy and speed

**Push-button select torque**

Fast and convenient error-free digital single increment torque settings

**Lightweight and Ergonomic pistol grip design**

Advanced low-profile handle to reduce operator fatigue and increase productivity.

**Low noise level only 70 db**

World's quietest extreme torque gun, ideal for sensitive environments and standards.

**E-RAD 8000 Electronic Powered Torque Tool**

The ultimate in Precision Torque is delivered by the E-RAD 8000! With 2% accuracy in a tool offering an operating range of 2030 to 8100 Nm of torque, it offers the best of both worlds, high accuracy in a totally portable handheld torque wrench. Ideal for wind tower erection or any high precision, high torque applications.

**Precision Bolting... High Torque Assembly Applications**

E-RAD 8000 Electronic Series Torque Tool

Part No.	Drive Size	Torque (Low- High)	RPM	Weight (kgs)	Noise Level
RAD-15955	1.5"	2030 - 8100 Nm	4.0	13.0	70db

All E-RAD 8000 Torque Tools come fully calibrated complete with:

- E-RAD 8000 Torque Tool
- Reaction Arm and Retention Ring
- Controller Cables
- Touch Controller
- Operators Manual
- E-RADCAL Calibration Software

(Controller options)

## ALSO AVAILABLE FROM GLOBAL MINING PRODUCTS

### ELECTRIC SERIES

Torque Range  
150-3100 Nm

- ✓ Quick adjust torque settings  
Fast and accurate "dial a torque" for maximum versatility and efficiency
- ✓ Soft-start vary speed trigger  
Allows operator to safely and quickly set reaction arm before full torque is applied
- ✓ Equal power in forward and reverse  
Convenience and cost effective use of same tool for break away and final torque
- ✓ Advanced ultra-durable electric motor design  
Extreme duty designed to reduce maintenance cost and increase reliability
- ✓ Advanced gearbox design  
PATENTED planetary gear reduction drive system delivering one of the highest power-to-weight ratios of any controlled bolting system

### BATTERY SERIES

Torque Range  
150-1750 Nm

- ✓ Quick adjust torque settings  
Fast and accurate "dial a torque" for maximum versatility and efficiency
- ✓ Soft-start vary speed trigger  
Allows operator to safely and quickly set reaction arm before full torque is applied
- ✓ Equal power in forward and reverse  
Convenience and cost effective use of same tool for break away and final torque
- ✓ Imagine the freedom – no air lines, no power cords!  
The lightweight design of the B-SERIES makes them ideal for any application, especially where compressed air and electricity are not readily available.
- ✓ Advanced gearbox design  
PATENTED planetary gear reduction drive system delivering one of the highest power-to-weight ratios of any controlled bolting system

### PNEUMATIC SERIES

Torque Range  
70-11500 Nm  
Over 35 models available

- ✓ PATENTED planetary gear reduction  
Delivers one of the highest power-to-weight ratios of any pneumatic controlled bolting system
- ✓ Smooth continuous flow of controlled torque  
Eliminates destructive hammering
- ✓ Lightweight ergonomic pistol grip design  
Reduces operator strain and injury; resulting in increased productivity
- ✓ Unmatched reliability and quality  
Delivered by one of the most advanced engineered gear boxes on the market
