

**Accuracy +/- 5%,  
Repeatability +/- 2%**

Every RAD® air torque wrench is individually calibrated and traceable to NIST standards to help ensure joint integrity. RAD® tools are many times more accurate than impact wrenches and in many cases can be more precise than click type manual torque wrenches, which are often over pulled by operators.

**88 times less vibration than  
Impact wrenches....  
Operates at only 85 db**

RAD® torque guns are one of the safest power tools on the market today. The exclusive low profile reaction arm takes virtually all the operational load off the operator, reducing injuries and greatly reducing operating costs. Don't wait for a time loss injury or legislation to force change in your environment, RAD® guns set the standard in bolting safety.

**RAD 10GX Pneumatic Powered Torque Tool**

One of our newest pneumatic torque wrenches, the RAD 10GX is quickly becoming the tool of choice for extreme duty use in a variety of industries, putting 1000 ft/lbs of power in a tool weighing only 8 pounds!

RAD 10GX GenX Series Torque Tool

Part No.	Drive Size	Torque (Low- High)	RPM	Weight (lbs)	Noise Level
RAD-12818	0.75"	200 - 1000 ft/lbs	20	8.0	80 db

- All RAD 10GX GenX Series Torque Tools come fully calibrated complete with:
- RAD 10GX Torque Tool
  - Reaction Arm and Retention Ring
  - 12" Hose & Fittings
  - Ergonomic Regulator Cage and Tool Holder

To ensure the highest quality of measurement and accuracy, each RAD® pneumatic tool comes individually calibrated traceable to NIST standards.

## ALSO AVAILABLE FROM GLOBAL MINING PRODUCTS

### ELECTRIC SERIES

Torque Range  
100-2300 ft. lbs.

- ✓ Quick adjust torque settings  
Fast and accurate "dial a torque" for maximum versatility and efficiency
- ✓ Soft-start vary speed trigger  
Allows operator to safely and quickly set reaction arm before full torque is applied
- ✓ Equal power in forward and reverse  
Convenience and cost effective use of same tool for break away and final torque
- ✓ Advanced ultra-durable electric motor design  
Extreme duty designed to reduce maintenance cost and increase reliability
- ✓ Advanced gearbox design  
PATENTED planetary gear reduction drive system delivering one of the highest power-to-weight ratios of any controlled bolting system

### BATTERY SERIES

Torque Range  
100-1300 ft. lbs.

- ✓ Quick adjust torque settings  
Fast and accurate "dial a torque" for maximum versatility and efficiency
- ✓ Soft-start vary speed trigger  
Allows operator to safely and quickly set reaction arm before full torque is applied
- ✓ Equal power in forward and reverse  
Convenience and cost effective use of same tool for break away and final torque
- ✓ Imagine the freedom – no air lines, no power cords!  
The lightweight design of the B-SERIES makes them ideal for any application, especially where compressed air and electricity are not readily available.
- ✓ Advanced gearbox design  
PATENTED planetary gear reduction drive system delivering one of the highest power-to-weight ratios of any controlled bolting system

### ELECTRONIC SERIES

Torque Range  
100-6000 ft. lbs.

- ✓ Push-button select torque  
Fast and convenient error-free digital single increment torque setting
- ✓ Lightweight and ergonomic pistol grip design  
Advance low-profile handle to reduce operator fatigue and increase productivity
- ✓ Extremely low noise level only 75db  
World's quietest extreme torque gun, ideal for sensitive environments and standards
- ✓ Data collection capability  
All E Series tools come with data collection software allowing traceability of each torque sequence performed
- ✓ LED Green (Pass) or Red (Fail) indicator lights  
Unmistakable visual signal indicates status of torque procedure for maximum accuracy and speed
